

Startup & Innovation Days

MONDAY, 14 May 2018 and TUESDAY, 15 May 2018

**Smart Energy
Systems Week
Austria 2018**

14. - 18. Mai 2018
Wien

Tuesday, 15 May 2018

11.45 Open Space I – in cooperation with PV Austria
Chair Vera Liebl (Secretary General, PV Austria)

In the Open Space Session small workshops will be conducted by participants.

12.45 Lunch Break

13.45 Open Space II – in cooperation with PV Austria

14.30 End

Topics – Version 4, 7 May 2018

#	Input from	Topic
1	Stefan Pirchmoser (Innsbrucker Kommunalbetriebe)	Community PV Projects (“Mieterstrom-Projekte”): Learnings during the implementation
2	Peter Illich, Carina Kollaritsch (FH Technikum Wien)	Community Storage Projects (“geteilte Nutzung von Stromspeichern”): Exchange of ideas and first experiences
3	Herbert Saurugg (Risk Expert)	Resilience: Why we definitely need a robust cellular Energy System
4	Andreas Türk (Joanneum Research)	Local Energy Communities: Latest developments in the EU
5	Helena Geißler (B.A.U.M. Consult), Urban Peyker (FFG)	ERA-Net Smart Energy Systems: Information about RegSys Joint Call 2018 on Integrated Regional Energy Systems
6	Marie-Theres Holzleitner (Energieinstitut an der JKU)	Regulatory framework of integrated energy systems: Opportunities and limits of combined electricity and heat business models
7	Ralf Gazda (InnoSense AG), Alexander Wendt (TU Wien)	Artificial Intelligence: Basics about machine learning and deep learning in future energy systems and Deep Dive in automated energy management as solution for integration of e-mobility
8	Otmar Schlager (Energieagentur der Regionen)	Procurement groups: How can groups of municipalities purchase together innovative energy solutions and services?
